[1. 12.4: Kidney, Urologic and Hematologic Diseases](#)

Release Date: 01-31-2012 Open Date: 03-05-2012 Due Date: 01-08-2013 Close Date: 01-08-2013

The Division of Kidney, Urologic, and Hematologic Diseases supports research into basic mechanisms of the organ and tissue function, and the diseases of the kidney, urologic and hematologic systems. Projects are expected to help develop an understanding of the physiology, pathophysiology, and related diseases of the kidney, urinary tract, and blood and blood forming systems so that rational treatm ...

[3. 13: NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES \(NIEHS\)](#)

Release Date: 01-31-2012 Open Date: 03-05-2012 Due Date: 01-08-2013 Close Date: 01-08-2013

Human health and human disease result from three interactive elements: the environment, genetics, and age. The mission of the NIEHS is to reduce the burden of human disease and dysfunction from environmental causes by understanding each of these components and how they interrelate. NIEHS achieves its mission through a multidisciplinary biomedical research program, prevention and intervention effort ...

[4. 13.1: Tools for Improved Exposure Assessment](#)

Release Date: 01-31-2012 Open Date: 03-05-2012 Due Date: 01-08-2013 Close Date: 01-08-2013

Fundamental to the NIEHS mission is the ability to quantify an individual's exposure, as well as the unique characteristics that account for individualized responses to the exposures. The goal for improved exposure assessment is to develop new technology and assays to generate precise measurements of human exposure to chemical and biological agents that may lead to disease or dysfunction. Th ...

[5. 13.2: Hazardous Substances Detection and Remediation Program](#)

Release Date: 01-31-2012 Open Date: 03-05-2012 Due Date: 01-08-2013 Close Date: 01-08-2013

The NIEHS Superfund Research Program (SRP) is interested in applying innovative approaches to develop novel strategies to characterize, monitor, and remediate hazardous substances at contaminated sites. SRP encourages applicants to develop green / sustainable detection technologies and remediation approaches that improve energy efficiency and reduce waste generation. Examples include but are not ...
